-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### Status

- 1) ☒ Responsive to communication(s) filed on 26 November 2004.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

## DETAILED ACTION

### *Specification*

1. The prior objection to the Specification for minor informalities has been overcome by the response filed 26 November 2004.
2. Applicant is advised to update the status of the continuity data on the first page of the Specification.

### *Claim Rejections - 35 USC § 112*

3. The prior rejection of claims 9 through 11 under 35 USC §112, second paragraph are moot because the claims are withdrawn.

4. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

5. Claims 1 through 7, 23 through 31, 47 through 56, 72 through 79 and 95 through 101 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Specifically, the Specification as originally filed fails to provide support for the newly added

limitation of the first side being flat. To the contrary, Applicant discloses a textured grip in paragraphs 0012 and 0066 through 0068 of the Specification and additionally recites a variable distance between the first and second sides of the body in claims 2, 26, 51, 74 and 100.

### *Double Patenting*

6. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Art Unit: 3671

7. Claims 1, 2, 3, 4, 5, 23, 24, 25, 26, 27, 28, 29, 47, 48 and 49 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1, 2, 1, 6, 7, 10, 12, 1, 2, 1, 6, 7, 10, 1 and 12 of U.S. Patent No. 6,854,163.

Although the conflicting claims are not identical, they are not patentably distinct from each other because:

With regard to claims 1 and 25, the '163 patent discloses the claimed invention except for the first side of the body being flat. It would have been obvious to one having ordinary skill in the art at the time the invention was made to make the first side of the body flat. The motivation would have been to provide a uniform feel for the grip to the hand of a user.

With regard to claims 3 and 27, the term "coupled" recited therein is anticipated by the term "integral" recited in claim 9 of the '163 patent.

With regard to claims 4 and 28, the term "light emitter" is encompassed within the scope of the term "light emitting means" recited in claim 14 of the '163 patent.

With further regard to claims 4 and 28, the '163 patent discloses the claimed invention except for a light emitter in the form of reflective materials. It would have been obvious to one having ordinary skill in the art at the time the invention was made to substitute reflective materials for the claimed phosphorescent chemicals since the Examiner takes Official Notice of the equivalence reflective materials and phosphorescent chemicals for their use in the indicator art and the selection of any of these known equivalents to emit light would be within the level of ordinary skill in the art.

*Conclusion*

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
